

RIS Room Display — IT Admin Guide

Azure AD configuration, Exchange permissions, and maintenance

Azure AD app registration

App name	RIS OAuth Meeting Room Kiosk
Tenant ID	817e531d-191b-4cf5-8812-f0061d89b53d
Client ID	80648895-4acf-4ac5-b4a3-c5bf6bc98983
Platform type	Single-page application (SPA)

Authentication settings

Implicit grant and hybrid flows

☒ Access tokens — enabled

☒ ID tokens — enabled

Redirect URIs (all three required, type: SPA)

#	URI	Purpose
1	https://pom7220.github.io/Display-Room/index.html	Kiosk (direct)
2	https://pom7220.github.io/Display-Room/dashboard.html	Dashboard
3	https://ris-display.ris-display.workers.dev/index.html	Kiosk via Cloudflare (LG tablets)

API permissions (delegated)

Permission	Type	Purpose	Admin consent
Calendars.ReadWrite	Delegated	Read room calendars, create bookings	Required
Calendars.ReadWrite.Shared	Delegated	Access shared room mailboxes	Required
Mail.Send	Delegated	Send approval request emails	Required
User.Read	Delegated	Identify signed-in user	Required

⚠ All four permissions must have **admin consent granted** after being added. Without it, the service account cannot access room calendars.

Service account configuration

Account	rismeetingroomsystem@central.co.th
MFA	Disabled (required for kiosk auto-auth)
Password policy	Non-expiring or long rotation period

Mailbox delegation	Full Access to all 12 room mailboxes
--------------------	---

Exchange: room mailbox delegation

Path: Exchange Admin Center → Mailboxes → select room → Delegation → Full Access → add
rismeetingroomsystem@central.co.th

Apply to all 12 room mailboxes:

risexpresso@central.co.th	risdoppio@central.co.th
riscappuccino@central.co.th	risamericano@central.co.th
rislungo@central.co.th	risristretto@central.co.th
rismacchiato@central.co.th	risviennese@central.co.th
risdecaffeinato@central.co.th	rislatte@central.co.th
rismocha@central.co.th	risaffogato@central.co.th

★ Recommended: persistent browser session

Extends silent token renewal from 24 hours to 90 days.

Without this, someone must sign in on each tablet once per day. With it, tablets run unattended for months.

Configuration path:

- 1 Azure Portal → Azure AD → Security → Conditional Access → New policy
- 2 Users: select rismeetingroomsystem@central.co.th only
- 3 Session: Sign-in frequency → Persistent browser session → **Always persistent**
- 4 Grant: Grant access (no MFA requirement)

Verification checklist

- ☐ App registration exists with correct Client ID
- ☐ All 3 redirect URIs registered as SPA type
- ☐ Implicit flow: both Access tokens and ID tokens enabled
- ☐ All 4 API permissions added with admin consent granted
- ☐ Service account has Full Access to all 12 room mailboxes
- ☐ Service account MFA disabled or excluded via Conditional Access
- ☐ Persistent browser session configured (recommended)
